Report a Trip

Reporting a trip is simple. Just click or touch the date and the following 'widget' appears:

Under "create a trip record" select...

1. Select a trip type - such as round trip (to work), one-time trip, etc.
2. Select a mode (the means by which you traveled) such as carpool, transit, etc.
3. Confirm the trip distance.

Once you 'submit' your trip is entered on the calendar.

At any time you can review the trips you reported by touching or clicking on them. As you do so, you'll see a summary of the info about the trip you selected.

Create a Template

Does your regular commute involve more than one mode? Perhaps you might be driving alone, then picking up a carpool partner and driving to a train station. From there you are taking the train to work.

You could separately enter each of the drive alone, carpool and transit trips, but this will get tedious if you do it every day. To help with this, create a trip template that stores all of these details in one simple entry.

First, touch or click 'create a template.'

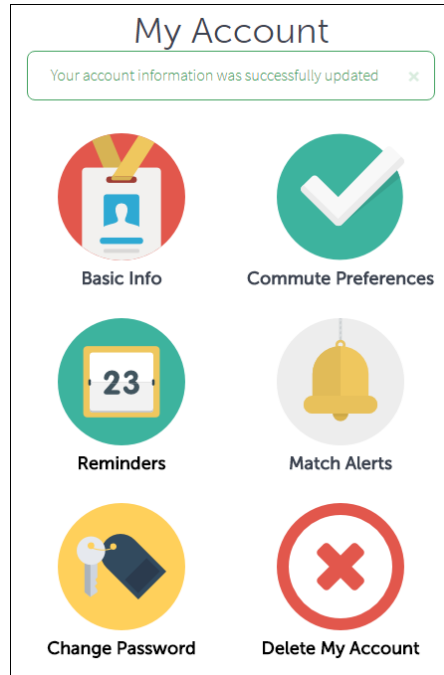

1. Give your template a name, such as 'carpool to train'
2. For each part of your commute, select the type, mode and distance. For example, if your first part is 3 miles of driving alone, select "round trip", "drive alone", and "3 miles", then click the "plus". This will add in the drive alone part.
3. Repeat this for the carpool part, and then the transit part, indicating the mileage for each mode.
4. Once you've done so, you will have a template liking like the one below.

Click 'submit' to save your template.
